

## INNOVATING TOGETHER

# Samsara Teams Up with Envue Telematics

Samsara is proud to work with Envue Telematics to jointly improve the safety and efficiency of our customers' operations.

## WHY PARTNER WITH SAMSARA?

# 01

### Improve Fleet Safety

By combining AI-powered harsh event detection, real-time coaching tools and easy-to-share video, Samsara Dash Cams reduce accident frequency by up to 50% and lower collision-related claims by up to 60%.

- Instantly review collisions, near-misses, and distracted driving events with HD footage
- Automatically detect tailgating, traffic violations, and risky driving behavior
- Defend your drivers and company against false claims using video evidence

## CERTIFIED RESALE PARTNERS

(Cont'd)

# 02

### Generate Actionable Insights and Reports

Increase operational efficiency with complete visibility into fleet performance and driver behavior

- Collect, analyze, and share data for your entire fleet
- Receive regular fleet activity reports through text or email with customizable report scheduling

# 03

### Enhance Driver Coaching

Encourage safe driving and mitigate risk with Samsara's complete video-based driver safety program.

- Improve driver safety using in-cab feedback and video-based coaching
- Reward safe practices like defensive driving to increase driver retention
- Standardize incident review and driver training—even across large fleets—with accountability and workflow tools
