

Compliance Safety Manager helps employers maintain FMCSA compliance, while saving time and money

The Hiring Path™

CSM's The Hiring Path™ provides an easy onboarding process that helps employers hire quality employees quickly and efficiently. Our automated speed to hire process starts with an Electronic Application. Employers can review application in CSM and determine if they want to proceed with candidate. Next, employers can run a series of screens to determine if the candidate is a good fit. Screens include:

- PSP Check
- Driving Report (MVR)
- Criminal Background Check
- Drug Screen
- DOT Physical
- DOT Previous Employer Verification

Upon completion of the screening progress, employers can decide to hire or not hire candidate. For hired candidates, an employee record is created, and all documentation collected during application process is automatically placed in their DQ file.

Driver Qualification File Management

Manage employee compliance better with CSM's completely paperless Driver Qualification File management program. CSM seamlessly manages all the required DQ elements in a single platform and will provide Alerts for approaching renewals and other compliance issues.

One Stop Solution

CSM is your one stop solution to better manage your new employee onboarding and DQ Compliance needs. CSM features:

- Web Based System available 24/7/365
- Intuitive system allows for easy set up and use
- Robust hierarchy configuration
- Unlimited Users with roll-based access
- And more!
