# About Drivewyze PreClear

Drivewyze PreClear rewards your hard earned safety score by providing bypass opportunities at fixed weigh stations and mobile inspection sites - on the EnVue fleet management solution with Geotab, eliminating the need for transponders.

- **Save time and money:** No stopping or slowing down at scales saves fuel and on-duty driver time.
- **Deliver loads faster:** Bypassing scales keeps drivers on the mainline, improving fleet efficiency and driver productivity.
- **Great for recruitment and retention:** Drivers are 3X more likely to work for a company that provides a weigh station bypass program.

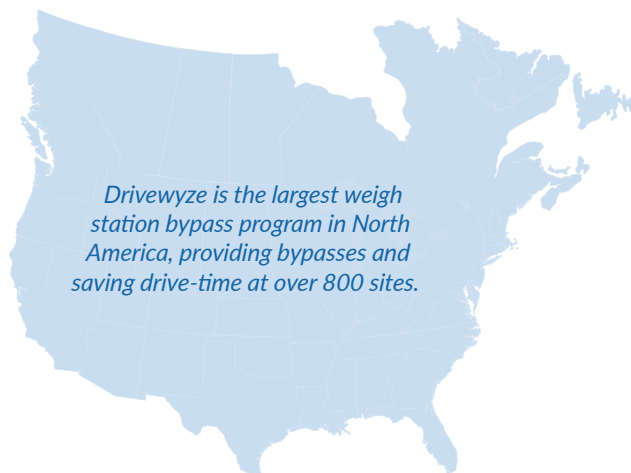

## Try Drivewyze Risk-Free

Want to find out exactly how much time and money Drivewyze could be saving your fleet? Talk to your EnVue representative about a risk-free evaluation.

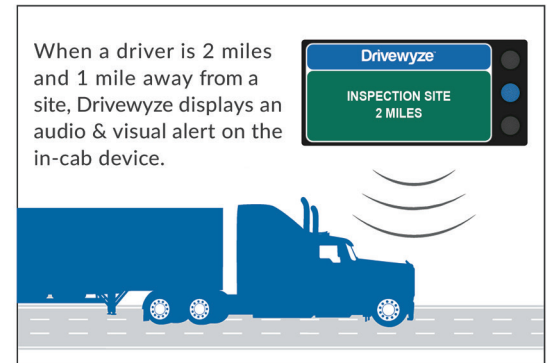

Following the evaluation, you'll receive a free report that shows you exactly how much time and money you saved by avoiding unnecessary weigh station delays.

Contact EnVue to start your risk-free evaluation today:

- *Make data driven decisions about fleet efficiency*
- *See your cost-per-hour impact for weigh station delays*
- *Find out your ROI for investing in a bypass service*

## How Drivewyze PreClear Works

*"The time savings we get from not stopping at the weigh stations gives us the ability to move up to an additional four loads of freight per month. Drivewyze also saves us about 60 gallons of fuel each month and saves wear and tear on our truck engines and transmissions by not having to slow down and stop at weigh stations."*
