

eLearning

Make safe practices an everyday habit with eLearning from Smith System.

For years, Smith System's eLearning has provided a convenient and effective way to introduce and reinforce The Smith5Keys® to safe driving.

Now with more than 160 eLearning courses, Smith System provides a comprehensive library of on-demand training options covering such topics as:

- Driver Safety
- DOT Compliance
- Workplace Safety
- HR/Leadership Development
- Health & Wellness

Benefits of eLearning

- Cost-effective option
- Accessible anywhere there's an internet connection
- Incorporates testing to improve learning and retention
- Real-time content updates
- Custom course creation
- Certificates of completion for all courses

Education Management

Utilizing our KeySix™ training portal, administrators can manage learner data, purchase and assign training, and view enrollment data and training records.

- A URL-designated training center, with your company logo
- Completion records readily available
- Reports easily accessible in the webpage or exported as a .csv (Microsoft Excel) file
- Real-time tracking of available seats
- Options of user self-enrollment or manual enrollment by administrator capability
- LMS integration

Technical Requirements

eLearning content is compliant with all browsers, as well as iOS and Android smartphones and tablets. A stable Wi-Fi Connection vs. LTE or 4G/5G service is preferred if using a mobile device.

eLearning Helpdesk

The Smith System helpdesk is available during normal office hours. The helpdesk may be contacted at (866) 215-8961 or via email at ohd@smith-system.com

Driver Safety Courses

The **Smith5Keys®**

Core Content (60 minutes)

The 5Keys to Forward Motion and Backing is a comprehensive review of our time-tested Smith5Keys® to Space Cushion Driving techniques which provide drivers with a unique insight into common driving errors. Learners respond to questions throughout the course and are tested to measure their content retention.

These concepts have been shown to significantly reduce motor vehicle crash rates, lower company costs and save lives. The content is available in truck and small vehicle format and is offered in 17 languages, including:

English	Thai	French	Polish	Chinese	Swedish
Dutch	German	Hindi	Portuguese	Korean	Czech
Spanish	Arabic	Italian	Turkish	Norwegian	

Driving Series (20 minutes)

Reinforce your driver safety program with the Driving Series from Smith System using The Smith5Keys®. These eLearning courses are tailored to some of the biggest issues threatening driver safety today.

- Stop Signs and Signals - Small or Large Vehicles
- Tailgating Awareness - Small or Large Vehicles
- Towing Trailers
- Turning for Trucks

D.O.T. Compliance

If you have fleet vehicles or drivers who fall under Department of Transportation (DOT) regulations, we have the most current and effective training courses available to reduce risk and ensure compliance. From the Federal Motor Carrier Safety Administration (FMCSA) rules to Electronic Logging Devices (ELDs), you can count on us to keep your fleet in good standing. Courses include:

- Alcohol Awareness
- CSA Overview
- Diet and Exercise
- DOT Reasonable Suspicion for Supervisors
- DOT Driver Compliance
- Driver Fatigue
- HAZMAT Transportation Part 1, 2 and 3

Workplace Safety

Today's workplace can be extremely dangerous. In fact, hazards can lurk in seemingly safe environments like offices. Thankfully, a well-trained workforce is one of the best ways to protect your employees.

Our eLearning courses address some of the most common safety issues found in the workplace. From preventing back injuries and asbestos exposure to protecting against heat stress and hearing loss, we help raise awareness so your employees know what to do in virtually any scenario. Courses include:

- Abrasive Wheels and Grinder Safety
- Access to Employee Exposure and Medical Records
- Accident Investigation
- Accident Prevention Signs and Tags
- Aerial Lift Safety
- Alcohol Awareness
- Asbestos Safety
- Atmospheric Testing
- Automated External Defibrillators (AEDs)
- Back Injury Prevention
- Banding and Box Cutter Safety
- Basic Rigging
- Benzene Safety
- Bloodborne Pathogen Safety
- Cold Stress
- Compressed Gas Safety
- Confined Spaces
- CPR
- Crane Safety
- Electrical Safety
- Electrical Safety NFPA 70E
- Emergency Action Planning
- Emergency Action Planning and Fire Safety
- Ergonomics
- Fall Protection Part 1 and 2
- Fire Safety
- First Aid Basics
- Flammable Liquids
- Hand and Power Tool Safety
- Hand, Wrist, and Finger Safety
- Hazard Communication
- Hearing Conservation
- Heat Stress
- Housekeeping – Industrial
- Housekeeping - Office
- Housekeeping for Workplace Safety
- Housekeeping – Vehicle
- Hydrogen Sulfide
- Industrial Ergonomics
- Infectious Disease Prevention at Work
- Injury and Illness Prevention Programs (I2P2)

- Struck-By/Caught-Between Hazards
- Trenching and Excavation Part 1 and 2
- Universal Waste
- Walking Working Surfaces
- Warehouse Safety
- Welding, Cutting, Brazing, and Hot Work
- Workplace Safety Orientation
- Workplace Violence Prevention

Health & Wellness

Maintaining a sound mind and body is crucial to performing well on the job. With the hectic pace of modern life, it's easy to make poor choices that lead to an unhealthy lifestyle. Setting aside time in your schedule to exercise regularly, eating a well-balanced diet, limiting or avoiding alcohol consumption, quitting tobacco use, and managing stress are keys to a successful career and overall life.

- Alcohol Awareness
- Diet and Exercise
- Drug Awareness
- Stress
- Tobacco and Smoking

HR & Leadership Development

Our HR / Leadership Development training will help your employees succeed at working together as a team in a healthy, effective manner. From coaching skills and delivering feedback to delegation and sexual harassment, you can count on our training courses to get your employees the knowledge they need to successfully function in a group. Courses include:

- ADA in the Workplace
- Anger Management
- Change Agility
- Coaching Skills
- Creating a Training Plan
- Delegation
- Delivering Feedback
- Diversity
- Effective Communication
- Goal Setting
- Introduction to HIPAA
- Sexual Harassment 2-Hour Course Package
- Sexual Harassment Part 1, 2, 3 and 4
- Social Sensitivity
- Workplace Violence Prevention

Custom Training Content

Thanks to our advanced content management system (CMS), we can create new courses or alter existing ones to tailor them to your specific needs and concerns. Custom training content options include rebranding courses with your logo and corporate colors, adding your site-specific content to our off-the-shelf content, and building a new training course from scratch. Contact us today to discuss how we can help meet your custom training content needs.
