

Your **complete** fleet maintenance software platform

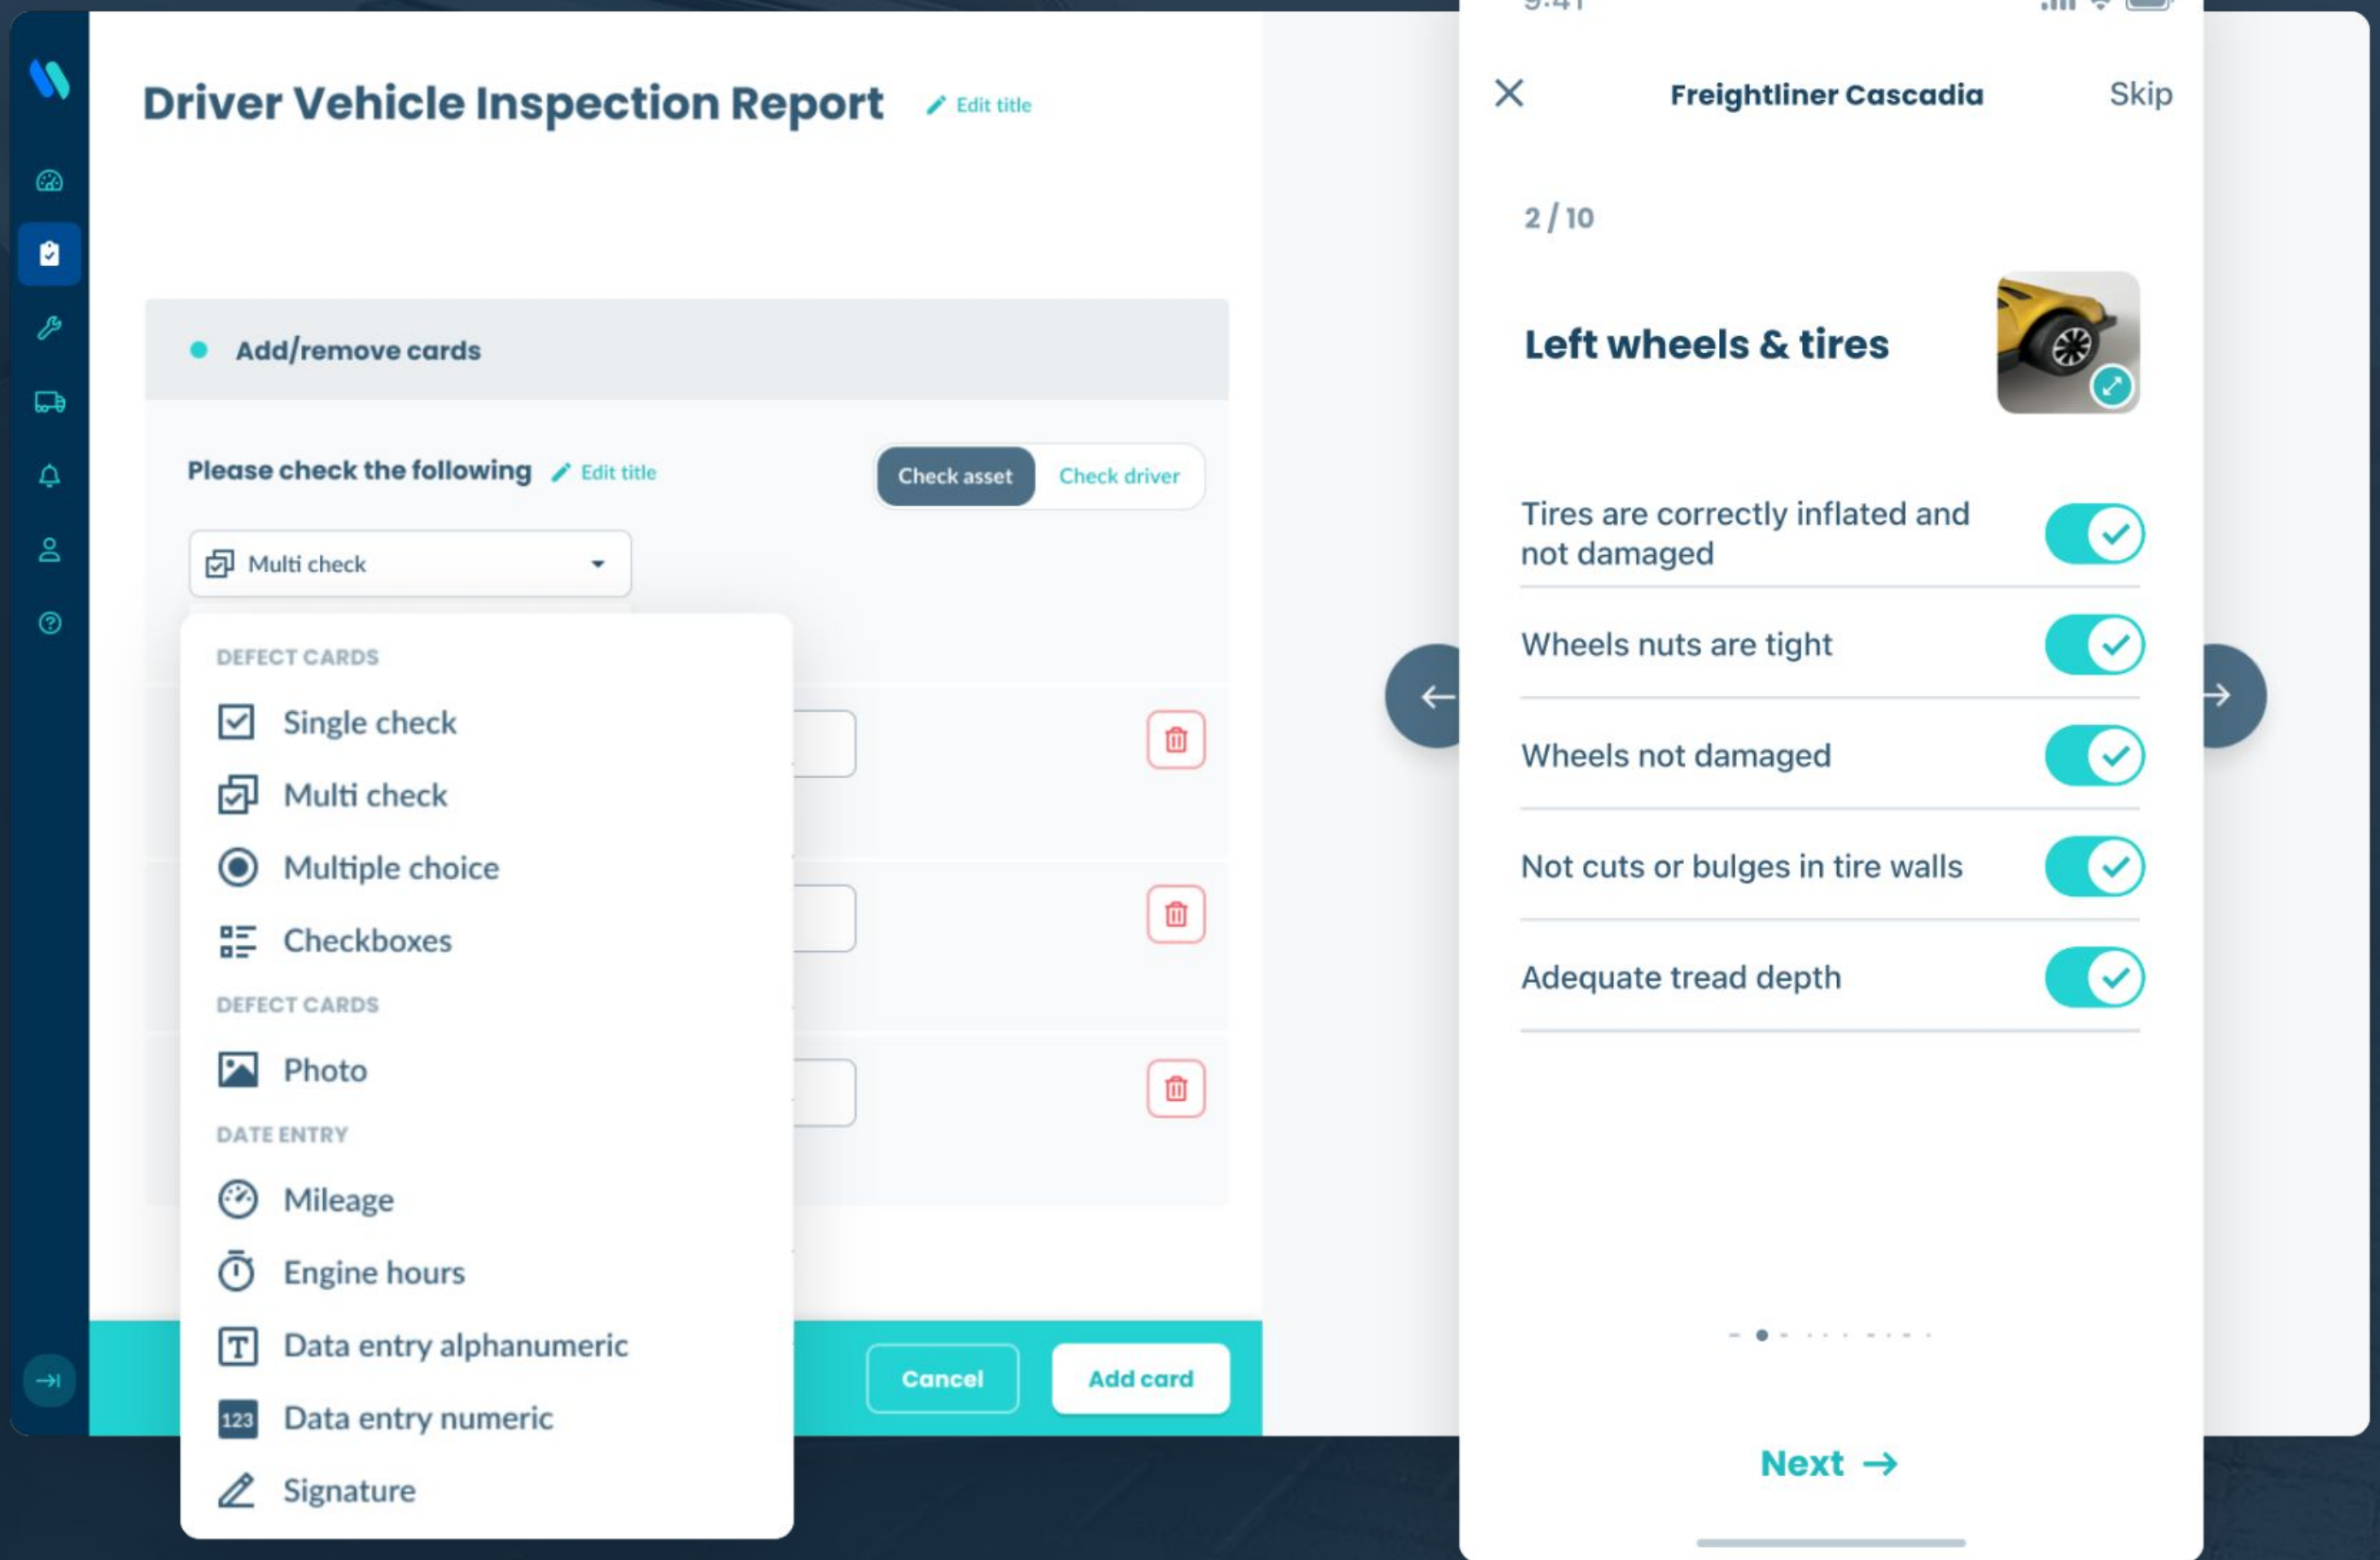

Fleet+Asset Inspections

- Mobile app for drivers
- Mobile app for managers
- Customize forms
- Take pictures
- Capture mileage

DOT/DVIR Compliance

- Only fully compliant eDVIR
- Real-time alerts of defects
- Easy audit reporting
- Mechanic/driver sign-off
- Notifications of missed DVIR's

The image displays two screenshots of a mobile application for Driver Vehicle Inspection Reports (DVIR).

The left screenshot shows the "Driver Vehicle Inspection Report" screen. It features a sidebar with navigation icons and a main content area with the title "Driver Vehicle Inspection Report" and an "Edit title" link. Below the title is a section "Add/remove cards" with a "Please check the following" prompt and "Check asset" and "Check driver" buttons. A dropdown menu is open, showing options for "Multi check" and "DEFECT CARDS" (Single check, Multi check, Multiple choice, Checkboxes) and "DATE ENTRY" (Mileage, Engine hours, Data entry alphanumeric, Data entry numeric, Signature). The "Add card" button is visible at the bottom right.

The right screenshot shows the "Left wheels & tires" inspection screen. It displays a list of inspection items with toggle switches indicating their status (checked/unchecked):

- Tires are correctly inflated and not damaged (checked)
- Wheels nuts are tight (checked)
- Wheels not damaged (checked)
- Not cuts or bulges in tire walls (checked)
- Adequate tread depth (checked)

The screen includes a "Skip" button at the top right and a "Next" button at the bottom right.

Whip Around Maintain

- Capture mileage from the app
- Create maintenance schedules
- Set reminders for upcoming tasks
- Create work orders for mechanics

WO-0013

Work order

Status: **IN PROGRESS**

Date booked: **Nov 4, 2020**

Assignee: **Glenn McKechnie**

Items: **4 service tasks**

Asset

Asset name: **1606-1**

License plate: **LXU821**

VIN:

Make, model, year: **GMC, 2500, 2006**

Mileage: **133,434 mi** (2 years a)

Engine hrs: **40,00 hrs**

Last inspected: **Aug 3, 2022** (1 day a

ID	Title	Description	Parts Qty	Labor hrs	Cost
SE-0008-1	Oil change	Routine oil change		1.25	\$100.00
SE-0007-1	Cabin check			0	\$0.00
SE-0006-1	Rear connector test			0	\$0.00

Total labor hrs **1.25**

Tax rate % **20**

Completion date **Jan 27, 2022**

Mileage **1,234**

Engine hours **50**

With Whip Around you can...

- Connect your team around defects and work orders
- Build forms to suit all asset types
- Never forget a service again with maintenance reminders
- Use our simple cloud-based storage for inspections and other records
- Securely store and manage asset/driver documents to meet DOT Compliance

Missed inspection reminders

- Get alerted when important inspections have been missed
- Prepare for DOT Audits easily
- Set reminders for your drivers each day

The screenshot displays a web application interface for a Freightliner 1067 vehicle. The top navigation bar includes tabs for 'Vehicle details', 'Inspections', 'Defects', 'Services', 'Work orders', 'Forms', 'Wallet', 'Driver access', and 'Integrations'. The 'Inspections' tab is active, showing a list of inspection records. The records are organized into columns: 'Status', 'Date', and 'Asset'. The 'Status' column contains checkboxes and labels for 'FAILED' (in red) and 'PASS' (in green). The 'Date' column shows dates from July 12, 2021, to July 21, 2021. The 'Asset' column shows the vehicle ID '1606-1'. A map in the top right corner shows the vehicle's location. Below the inspection list, there is a table with columns for 'Driver' and 'Form', listing drivers and their corresponding DVIR inspection forms.
